PHILADELPHIA, PA.

1884.

PREFACE.

All the following stamps are printed on what is known in official circles as "distinctive" paper, manufactured exclusively for the United States Treasury Department under contract, the first called Old White used from 1863 to 1871 was a close weave bluish white paper, the next used from 1871 to 1878 was Silk-threaded, one of its distinctive features is the introduction of colored silk threads into the body of the paper while in process of manufacture, in combination with a distributed silk fibre of different colors; Another kind of distinctive paper used from the latter part of 1878 on which all Internal Revenue, Private Proprietary &c. stamps are printed is a paper water-marked with the initials "U. S. I. R." (*United States Internal Revenue.*) in every sheet on which the stamps are printed; This water-mark is not found entire on every stamp; In 1878 the Treasury Department as an experiment used a distinctive Pink paper which met with general opposition from the Proprietors of Patent Medicines, Matches &c. some few of whom returned them to the Department and were not issued; After that they were printed on Water-marked paper till July 1st. 1883, when they were abolished by Act of Congress; Great care and supervision is exercised in the manufacture of the paper and printing, as every sheet has to be accounted for, and subjects the violator to the provisions of section 5430 of the Revised Statutes, which reads as follows:—

"Every person * * * * who has or retains in his control or possession, after a distinctive paper has been adopted by the Secretary of the Treasury for the obligations and other securities of the United States, any similar paper adapted to the making of any such obligation or other security except under the authority of the Secretary, or some other proper officer of the U. S. shall be punished by a fine of not more than 5000 dollars, or by imprisonment at hard labor not more than fifteen years, or both."

All Match, Medicine &c. stamps are Perforated except when they are otherwise mentioned, those that are Rouletted are on Water-marked paper only.

The yellow and orange wrappers of the U. S. Proprietary Medicine Co. and J. S. Burdsall & Co. are printed on white paper, and afterwards colored by the Proprietors.

O. S.

Philadelphia, Pa. Feb. 14th. 1884.
